

Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 16 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Early rain clearing to warm sunshine. Cold overnight.

Today:

A wet start, with extensive low cloud and spells of rain moving southeast. This should clear through the course of the morning to leave a dry afternoon with some warm sunshine and light but strengthening winds. Maximum temperature 13 deg C (55 deg F).

Tonight:

Fine with clear spells into the evening, allowing temperatures to fall away and bringing a risk of frost. The cold feel will be accentuated by the brisk northerly wind. Minimum temperature -2 deg C (28 deg F).

Wednesday:

Probably fine throughout, although cooler than recent days, especially to start. Brightest in the west with some fair weather cloud, but probably periodically cloudier in coastal districts. Northerly winds easing. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:

Mainly settled with some brighter spells, but overall becoming cloudier and breezier through this period, with a little rain possible. Mild by day, but with slight overnight frosts in places.
